Instructions for use

D

Auto-adapting backrest

► The “independent fit” backrest by “of course” adapts to offer a perfect form fit: when leaning back onto the chair, the neck rest moves forward automatically to support the head and neck. For relaxed sitting.

Healthy sitting is a question of attitude

► The anatomically **shaped seat** should be fully occupied. Only then is proper contact with the supporting backrest assured.

► The correct **seat height** means: The knee joint adopts an angle of about 90° when the feet are flat on the floor.

► **Dynamic sitting** means changing your sitting posture frequently, or in other words shifting as often as possible between the front and rear sitting posture. You should therefore adjust the backrest dynamically. “of course” is equipped with a “Similar-Plus” mechanism, allowing you to adjust the backrest pressure as best suits you. This ensures that the backrest and seat automatically give your body support in every sitting/reclining position.

Tips for users

Correct use

This office swivel chair is designed for a user weight of up to 150 kg and may only be used for the purpose intended while exercising due care and attention. Using it inappropriately (e.g. as a stepladder, sitting on the armrests or placing extreme weight on one side) could result in accidents.

Castors

Please remove the red or blue transport protection before using the product for the first time. A variety of castors are available, for the sake of your safety and for use on different types of flooring in accordance with safety regulations:

- Hard castors for soft flooring (standard)
- Soft castors for hard floors are optional

Changing castors: this might be necessary, for instance, after moving office, or after the installation of a new floor covering – simply pull out the castors and push new ones in.

Upholstery

In the case of light damage or soiling to the upholstery, please only use suitable delicate cleansing agents, or Sedus cleaning foam. The upholstery should only be changed by skilled persons.

Leather

Leather is a natural product. The natural markings of the animal skin gives the material its unmistakable texture.

Rub off light soiling with a soft woollen cloth. Heavier soiling should only be treated with cleaners designed for aniline-dyed leather. Do not expose semi-aniline leather to direct sunshine.

Panels

The backrest and armrest panels of real wood veneer, high gloss varnish, or Corian may be cleaned using a soft cotton cloth. Please use lukewarm water, if necessary with a little soap solution or washing-up liquid. Micro-fibre cloths, abrasive cleaning agents (scouring agents) or furniture polish may damage the high quality surfaces permanently.

Servicing

Servicing work, such as exchanging or working on the pneumatic springs, may only be carried out by trained personnel.

A

Height of the seat

- ▶ Lowering the seat:
 1. Sit down on the seat
 2. Pull the lever upwards (the seat will drop slowly)
 3. Releasing the lever at the desired height will lock the position
- ▶ Raising the seat:
 1. Stand up
 2. Pull the lever upwards (the seat will rise slowly)
 3. Releasing the lever at the desired height will lock the position

B

Presettable opening angle

- ▶ Setting the angle:
 1. Take your weight off the backrest
 2. Pull out the knob
 3. Turn the knob to set the opening angle (0, 11, 22, 32 degrees)
 4. Push the knob back in

C

Strength of the backrest pressure

- ▶ Increasing the backrest pressure:
 1. Take your weight off the backrest
 2. Pull out the knob
 3. Turn the quick adjustment mechanism clockwise
 4. Push the knob back in
- ▶ Reducing the backrest pressure:
 1. Take your weight off the backrest
 2. Pull out the knob
 3. Turn the quick adjustment mechanism anticlockwise
 4. Push the knob back in
